“  
XSEDE is very pleased to see these awards being made by NSF. The timing will allow for an orderly transition from XSEDE to ACCESS. that minimizes disruption to the research community. XSEDE looks forward to collaborating with the ACCESS awardees to transition capabilities as appropriate.  
JOHN TOWNS ACCESS PI and project director

INTRO PARAGRAPH

The ACCESS Allocation Review Committee (AARC) is a panel of volunteer experts from the faculty and staff of U.S. universities, laboratories, and other non-profit and commercial research organizations.

PARAGRAPH  
Archivo Regular 18/30  
The ACCESS Allocation Review Committee (AARC) is a panel of volunteer experts from the faculty and staff of U.S. universities, laboratories, and other non-profit and commercial research organizations. All members have expertise in at least one area of computational science or engineering and serve a term of approximately three years, with the possibility of a one-time renewal.
